A World of OPTIONS™**

EXPERIENCE THE OXFORD NETWORKS DIFFERENCE

At Oxford Networks, our company culture is the foundation for everything that we do. It is a culture that rewards innovation, values trust and teamwork, and requires commitment and integrity. Our culture allows us to attract great employees and to deliver a customer experience that is unique and tailored to meet customer needs. Let our Maine based team work to find just the right solution for your company.

FIBER OPTICS, FROM BANGOR TO BOSTON

Oxford Networks' innovative fiber optic network stretches from Bangor to Boston, connecting many communities in between. With this network we are able to bring network capacity to your business that was previously unheard of in Maine. Our 10 Gig Ethernet backbone network, coupled with the only large scale Fiber to the Premise (FTTP) network in the state, provides your business scalable, redundant network connectivity in increments from 1 Megabit to 10 Gigabits. The flexibility of our network allows your connection to be upgraded in hours rather than days.

FAST AND FLEXIBLE: SERIOUS BUSINESS

All companies say their products and services are great, but until you actually experience their services it is difficult to tell. Oxford Networks' customers are one of our greatest advocates with 100% of surveyed businesses stating that they would recommend us to others. We are proud of the superior service we provide, but don't just take our word for it...

Switching to Oxford Networks was the easiest technology transition I have ever made. Their technology and customer service are great!

Eric Fullagar Owner
Freeport Cheese and Wine

Oxford Networks has been a key partner for many years, delivering core telecommunication services to our locations throughout the state. As a member of the board and a long standing customer, I cannot be more pleased. I am confident they will handle our needs well into the future.

Jim Delamater President and CEO
Northeast Bank

Oxford Networks worked with us and our technology vendor to determine the optimal configuration for our services. We have been very happy with their service.

Bill Robinson – Senior Manager, Information Technology, Atlantic Fund Administration

I called my original phone company weeks in advance to place an order and was told they could not guarantee that my service would be installed in time for our grand opening. I called Oxford Networks and in no time they effortlessly had my business up and running. *David Kennedy – Owner, Beef 'O' Brady's*
