Terms and Conditions

General Description of Services Offered

1. These Terms and Conditions and Rate Schedules govern Company services originating and terminating at points within Maine. Specific services and rates are described in the Rate Schedules.
2. The Company's intrastate service territory is the State of Maine. Company services are available 24 hours per day, 7 days a week.
3. Company services are available for residential and business customers.

Calculation of Rates

1. Rates for service are based on airline mileage between rate centers of the calling and called stations. The location of Rate Centers is based on information provided by Bell Operating Companies. Mileage is calculated using the Vertical and Horizontal (V&H) coordinate system from the National Exchange Carriers Association Tariff F.C.C. No. 4.
2. The chargeable time of a call is timed and measured by the underlying carrier. Timing of calls begins when the call is answered at the called station. Different rates may apply depending on the time of day or day of week the call is made. Calls originating in one time period and terminating in another time period will be billed according to the rates in effect during each portion of the call.
3. Upon customer request, the Company will automatically apply a 70% rate reduction for intrastate toll calls made from lines used by certified deaf, hard-of-hearing or speech-impaired persons who must rely on teletypewriters for residential telephone communications, and others as provided in 35-A M.R.S.A § 7302. To qualify for an automatic reduction, the customer must submit an affidavit to the Company on a form approved by the Maine Department of Human Services, stating that due to one of the aforementioned conditions, he or a member of the household must rely on a teletypewriter for telephone communications, and that the equipment is connected or acoustically coupled to his telephone. Upon request, customers making calls to certified persons are eligible for a 70% rate reduction for relevant billed calls made during each billing period.
